

Inter Agency Smart Growth Coordinating Committee

Purpose: To provide a senior staff level forum to follow through on the multiple initiatives that are part of the 3 year “Smart Growth – The Competitive Advantage” strategy.

Process (Designees and back-ups): To build institutional relationships to enhance communication and avoid duplicative efforts or activities that may work at cross purposes. To balance the need for inclusiveness (of talent and consultation) and administrative manageability, proposed designees are separated into primary contacts (so there is one per agency) and “CC” back-up designees who are called upon as scheduling conflicts and substance demands. Much of the communication will be by e-mail, thus back-up staff are proposed to receive copies of all Committees deliberations. In addition, when back-up designees represent the Primary designee they will need to take the larger view of the entire agency.

Immediate Issues to be addressed: 1) Review 3 year SM – Competitive Advantage strategy (what is complete, in process, needing attention, needing revision, etc.); 2) Monitor substance and schedule of SG legislative initiatives; 3) enhance State - Municipal Relationships through review of grant preferences, growth related capital investments (and tracking them), Comprehensive Plan and Ordinance data needs, reviews, compliance issues, among other things

Dept	Bureau/Div/ /agency	Primary Contact/Designee	“cc” Designee/ back-up &/or called upon as substance demands
DOC		Dawn Gallagher	
	Maine Forest Service		Tom Doak
